Eriez' 5-Star Service® Highlighted in Full-Color Brochure

Erie, Pa. — Eriez' full-color, four-page [5-Star Service®](#) brochure is now available in PDF and printed format. According to the literature, Eriez' 5-Star Service Center helps eliminate or reduce equipment downtime by ensuring that customers' magnetic, vibratory and inspection processing equipment is quickly back in operation and functioning at peak performance.

Eriez' 15,000-square-foot 5-Star Service Center is completely equipped to remanufacture even the most complex systems. The fully staffed service center employs trained technicians, and the machining, fabricating and welding capabilities necessary to rebuild all Eriez equipment.

The rebuild capabilities of the 5 Star Service Center are highlighted in the informative brochure. Eriez' 5-Star rebuild program provides complete diagnostics, tear-down, inspection, updated electronics and assemblies, testing and "as new" warranties.

The brochure points out the types of Eriez equipment that can be remanufactured, which can save customers thousands of dollars versus buying new. Equipment and typical service work highlighted in the brochure include Vibratory Feeders, Drum Magnet Separators, Wet Drum Separators and Suspended Electromagnets.

Eriez also has service technicians available for in-house repairs and routine maintenance checks. "We will come to you, even on short notice" says Dave Hansen, Eriez Customer Service Manager.

Eriez maintains years of equipment records to help expedite service. Eriez' 5-Star Service also offers customers Instruction and Operation Manuals (IOMs), parts lists and step-by-step troubleshooting procedures.

To download the brochure in PDF format, visit <http://service.eriez.com>. To obtain a hard copy, contact Eriez and request brochure B-102.

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through 12 international facilities located on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit www.eriez.com or send e-mail to eriez@eriez.com. Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
