Eriez® Offers Complete Guide for Selecting Metal Detectors for Various Industrial Applications

Erie, PA---To help users properly select an industrial metal detector for their particular application and its associated challenges, Eriez is offering a free guide called, [“How to Choose and Use Industrial Metal Detectors.”](#)

Since every metal contamination problem is unique in some way, the appropriate equipment for detection (and rejection) is not always apparent, particularly to end users who may not be aware of all of the possible options, advantages and disadvantages of various detection (and rejection) methods. This 28-page guide is a must-read for anyone searching for a metal detector solution.

“How to Choose and Use Industrial Metal Detectors” explains the principles of metal detectors, where they should be used, the basic layout of a metal detector, styles and how to select the right metal detector. The guide concludes with tips on getting the most production out of an installed metal detector.

To download this free guide in PDF format, visit <http://eriez.com/Products/MetalDetectorsIndustrial/>. For a printed copy, contact Eriez and request brochure MD-70.

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company’s magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through 12 international facilities located on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit www.eriez.com or send e-mail to eriez@eriez.com. Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
